Apex Statement on REACH

Nov, 2015

Dear Customers,

We, Apex, are taking the necessary steps to implement the REACH regulation concerning our products which are exported to EU by us or our customers.

Apex products are manufactured or formulated by our supplier's substances as well as Apex's substances. Apex has appointed Ninestar Image (Holland) B.V. as the Only Representative to carry out the importers' obligations in REACH.

Since Apex has pre-registered the substances including our customer's Europe volume, our customer can be regarded as a downstream user of Apex, thus you can import and sell our products without any risks under REACH.

Currently, we are checking each substance's pre-registration and registration situation by real-time. If some substances in Apex products wasn't pre-registered or registered by Apex, we will ask our raw materials suppliers to do registration. We'll do our best effort to respond to REACH for our customer's Europe business.

Whenever necessary, we'll inform our customers of the REACH implementation situation regularly. If you have any comments or questions, please do not hesitate to contact us.

Sincerely yours,
Apex Technology Co., Ltd
